

City of Mineola

Pursuant to 30 TAC Part 1 Chapter 290, Subchapter F the city of Mineola is hereby notifying the public and Mineola water customers that the city intends to discontinue the use of Fluoride (hydrofluorosilicic Acid) additive in the Mineola water system. The proposed date for the discontinuance of Fluoride is **11/30/2022**. The discontinuation of the fluoride additive will not have any effect on taste or odor of your water.

Fluoride which is a naturally occurring substance found in rocks that leaches into groundwater, may still be present in your water. The levels vary depending on rocks and minerals it has contact with. The city of Mineola will continue to test and monitor for the naturally occurring fluoride mineral to maintain acceptable limits.

If you have any questions please feel free to contact the City of Mineola Water Department at **903.569.6183**
